little green adventures

around Amersham

February

Let's create a today where our children can thrive!
Protect our little people and their planet with these easy ideas.

Be a green gardener

As we move away from the winter frost the soil starts waking up.
Get together with your children to cultivate your own vegetables! It is **immensely fun and rewarding** and it also helps protect our future as food production causes a staggering 25 % of all polluting gases.
Have a look at some easy to grow veggies and when to plant them.
Garden and respect nature:

- Create your own compost!
- Collect rainwater in a water butt
- Go pesticide free
- Leave part of your garden to nature
- Why not have a mini-pond?

Sustainable Amersham will have a seed swap at its next Repair Cafe.
Come over for some tips and seeds!

What's on this month?

See our Calendar for all dates!

SUSTAINABLE AMERSHAM

Walk in and for nature

January has been full of storms, cold spells and flu. Shake-up the winter torpor by stepping outside for a walk.
Find some activities here and have a look at WWF's yearly Big Winter Wander where you can walk and fund-raise for Nature. With some cool tools for older kids to explore!
